

Safe AIO for F&B

GelSprinter GX3050SFN Testimonial

Lee Wai Chee

Director, MyLounge (Soft Melody Sdn Bhd)

MyLounge is a Café Bistro F&B (Food and Beverage) outlet that serves Asian and Western breakfast and lunch, as well as caters food and offers corporate event launches with triple LCD TVs for presentations. They also offer free wireless Internet via dual notebooks. Lee Wai Chee is the Director of this F&B and this is what he had to say about the Ricoh Aficio GelSprinter GX3050SFN AIO A4 Color Printer.

Why did you choose this AIO Ricoh printer for your business needs?

It was recommended to me by a friend when I asked his opinion on what printer should I get before I decided on one for my normal office work usages. I'm glad to see it was a very good recommendation indeed!

How's it like using this Ricoh printer?

I like it very much. It's good and user-friendly, so that's one thing I don't have to worry about and it helps me to concentrate on my business instead.

Has your business improved by using this AIO printer?

No obvious improvement because I'm not using it directly for business improvement but only for normal office needs and usage. However, I do like the fact I don't have to worry about any prints being toxic to the food and drinks that I have here, and the fact printed materials won't be submissive to any spills should any occur.

This printer is known for its non-toxic waterproof ink – is this an important aspect for you?

Yes it is very important to us as we're running an F&B business and having non-toxic products is an important aspect in our outlet. Having the ink being waterproof is another important aspect as in an F&B outlet liquids are always present and we don't want any smearing of prints from accidental spills from any forms of liquids.

What kind of other SMBs would benefit from using this printer?

I would say any type of F&B outlets should seriously consider a printer like this for its non-toxic ink, and the fact the printer is 99% recyclable makes me feel better that it won't have any effect on the food and drinks I have here. Having waterproof ink prints is sure a peace of mind too!
